SISSON'S  
**P E O N I E S**  
GLADIOLI AND IRISES  
1927 LIST

W. A. SISSON, OWNER AND MANAGER

Grown by Wilbur A. Sisson and Wilbur  
A. Lawson on Mr. Lawson's Elmway  
Guernsey Farm of 200 acres, Rosendale,  
Wisconsin

MEMBER OF

The American Peony Society  
The American Gladiolus Society  
The American Iris Society

## STATEMENT

Rosendale is on a triangle with Oshkosh and Fond du Lac at the intersection of Highway 26 and 23. Sixteen miles from Oshkosh on 26 and twelve miles from Fond du Lac on 23. Oshkosh and Fond du Lac are eighteen miles apart on Highway 15.

The home garden is in the village of Rosendale, at the home of W. A. Sisson, where the exhibition garden is displayed. Tulips in May, Peonies in June and Gladioli and other flowers for the balance of the season.

The farm garden is located on W. A. Lawson's farm, one mile north of the village on No. 26. There are two hundred acres with an old-fashioned comfortable house with a wide sweep of lawn and trees which attract attention. The farm is named Elmway on account of the approach being lined with elm trees. Mr. Lawson owns a herd of Guernsey cattle.

## COMBINATION BOOKLET

We are getting out this advance list of Peonies, Gladioli and Irises for 1927 as there seems to be a call for same already. In the spring of 1927 we shall probably get out separate booklets of each.

## ORDERS TAKEN

Orders may be placed at any time during the year and paid for when the goods are shipped. Credit cheerfully extended to responsible parties.

## PEONIES

There is absolutely but one time to plant peonies and that is from the last of August until freeze-up when the roots are in a dormant condition and can be handled without damage. Or they may be dug in the fall and kept in cold storage over winter and planted in early spring. We ship in fall only.

## **GLADIOLI**

Gladioli are planted in the spring when danger of frost is over, up to July first. We will fill orders during the fall, winter and spring, but not during the coldest weather.

## **IRISES**

Here is a flower that some say may be planted any time. Maybe so, but there is but one perfect time and that is directly after the blooming season. July is the shipping month. At any other time you must take them at your risk.

## **TESTIMONIALS**

Most growers have a testimonial of self-praise on most every page of their catalogue. We receive a lot of nice letters, but have never felt that the public would care to read what did not concern them, our private affairs. We guarantee to please you or if we fail to do so, we return your money.

## **HOW TO PLANT**

We ship mostly to private parties, who are making high class collections and they know how to plant. If you wish our instructions and views on planting, please write us. Simple instructions go with each shipment.

## **RETAIL ONLY**

We are retail only, but will allow a discount to the trade. We have a few varieties of peonies that we can now sell in a wholesale way.

## **GRATIS ROOTS AND BULBS**

We like to make presents to nice people. Name over a list of varieties that you covet and don't feel able to buy. If we don't give you what you want and something worth while, it's probably not worth anything to you.

## SIZE OF PEONY ROOTS

This subject of size of peony roots has been so abused by much talking and writing, much in the same way as children quarrel. One yells, "one eye" and other two, and then the rabble shout three to five. We furnish a good substantial root with some strong eyes, enough to grow the root. The root will be large enough to divide, but it is ready to plant as we ship it. If you want a clump of roots, this is a matter of correspondence.

## PATIENCE

With peonies you must have patience. The largest sized planting root will not bring anything but pretty blooms the first year. Typical blooms will not show under five years of good cultivation and care. And please do not cast a vote on any variety until you have watched it carefully for ten years. If you do not do this, or heed this advice, you are not only handicapping your own life with this flower, but you are inflicting a great loss on the public. Because most flowering plants throw perfect blooms the first year, most people look for the same with peonies. Thus we have such great confusion that many of the growers call a white a pink or a red or a yellow or any color. A peony will not bloom true until it has had time to grow a strong system of roots deep into the ground and this cannot be done under five years. Then it is well to wait another five years to see if the plant blooms true each year. If you do not follow this advice you will probably never know the true color of a variety or will you know even if it's a single or double. Mr. E. J. Shaylor, who passed away last October and who was perhaps the greatest American peony introducer, once wrote me that it was too bad that we could not grow peonies by steam.

## **CARRIAGE PREPAID**

We pay all of our own transportation charges. We place the roots and bulbs in your hands by free delivery insured.

## **PRICES QUOTED**

Prices quoted are subject to change without notice and our ability to fill orders on depleted stocks.

### **THE AMERICAN PEONY SOCIETY**

All peony growers should join the American Peony Society and receive their printed matter. Fee, three dollars per year. Apply thru us.

### **THE AMERICAN GLADIOLUS SOCIETY**

Please send us your application to join The American Gladiolus Society and receive its monthly magazine. Fee, two dollars per year.

### **THE AMERICAN IRIS SOCIETY**

Also send us your application to join The American Iris Society. You will receive some printed matter. Fee, three dollars per year.

### **THE FLOWER GROWER**

This is a good flower paper devoted to all kinds of flowers. Best we know of. Monthly. Subscription per year, two dollars. Order through us.

### **REMEMBER**

We do not write to anyone that does not first write us and even then we do not keep you on our list unless you show interest in our line. As long as we can adhere to this method it is going to lighten our waste paper baskets.

Reference—Rosendale State Bank.

### **SISSON'S PEONIES**

W. A. Sisson, Mgr.  
Rosendale, Wis.

## SISSON'S PEONIES

---

List No. 1—Price, \$1 each

Achille (Calot 1855) Blush  
Agida (Unknown) Red  
Albatre (Crousse 1855) White

<b>Yeso, White</b> .....	5.00

## SISSON'S GLADIOLI

We do not mean to sell much in gladioli except bulblets because we have not the time to handle bulbs. If you want anything in bulbs write for quotations. Prices change rapidly and always seem to have a sharp downward slide. If our prices seem high, write us and we will meet competition.

### New Introductions

I offered two hundred dollar prizes at the State Fair Glad Show in Des Moines for 1926. One for my sister, Miss Marietta Sisson, of Chicago, for a lavender. This was won by Kristian Prestgard. The Iowa Gladiolus Society liked this variety so much that they wished to call it Miss Des Moines. To please the boys, the originator and myself gave way and allowed the name Miss Des Moines to take the place of Marietta Sisson. My offer for a new seedling to be named Marietta Sisson will hold over to another year.

The other hundred dollar prize for a seedling to be named for my sister, Mrs. Emma Sisson Balcom, of Hawarden, Iowa, came near being won by Mr. Prestgard. It was held up by the judges on account of some ratings. It may be awarded next year. Color, cream with pink. No stock will be let out this year, and I understand very little of Miss Des Moines.

Gladioli mixture in bulbs, 50 cents per doz.

Diener's Mixture in bulbs, 75 cents per doz.

On the following named varieties the prices given are for one bulblet. Where no prices are given, write us if interested, please.
